Reasons For Allowance

The following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claim(s), in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claim 33, which includes the second lens unit consisting of a positive lens element, a positive lens element, a negative lens element, and a positive lens element. The prior art fails to teach a combination of all the claimed features as presented in independent claim 34, which includes the numerical conditions of claim 34. The prior art fails to teach a combination of all the claimed features as presented in independent claim 40, which includes a zoom lens comprising a first lens unit of negative refractive power, the first lens unit consisting of a negative lens element, a negative lens element, and a positive lens element, and a second positive lens unit consisting of two positive lens elements. The prior art fails to teach a combination of all the claimed features as presented in

independent claim 44, which includes a zoom lens comprising a first lens unit of negative refractive power closest to the object side, a second positive lens unit comprising a plurality of lens elements, having a positive lens element located closest to the object side, where the separation of the first and second lens units is varied during zooming.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
